

LifeBook® C1410 Notebook

The Fujitsu LifeBook C1410 notebook has all the power and features you demand from a business notebook—at an affordable price. Powered by the latest Intel® Core™ 2 Duo Processor, the LifeBook C1410 notebook can easily handle the most demanding applications. Its exceptionally long battery life will keep you up and running long after lesser notebooks fade. With its bright 15.4-inch Crystal View widescreen XGA display, you get 30% more viewing area than with a conventional 15-inch display. Yet with all these features, the LifeBook C1410 notebook is amazingly light, weighing less than 6.4 lbs. With the renowned Fujitsu product reliability and durability, the LifeBook C1410 notebook only requires a light IT support load. Look no further than the LifeBook C1410 notebook for outstanding performance, extended battery life, and a surprisingly short ROI cycle.

BENEFITS

Mobility

Weighing less than 6.4 lbs with a large 15.4-inch Crystal View Wide XGA (16:10 format) display, the LifeBook C1410 notebook is surprisingly light compared to other 15.4-inch notebooks in its class. Powered by the latest Intel Core 2 Duo Processor, the Fujitsu LifeBook C1410 notebook delivers great performance as well as extended battery life for increased productivity. The available 802.11a/b/g wireless LAN capability makes it ideal for mobile business professionals. The LifeBook C1410 notebook has a built-in modular bay, which allows you to install the Fujitsu optical drive of your choice. If you need extended computing while on the road, simply swap out the optical drive for a second bay battery.

Flexibility

Using the Fujitsu Custom Configuration Program, the LifeBook C1410 notebook can be easily configured the way you want it. If general business is your focus, select the value options such as the DVD/CD-RW combo drive to fit your budget. For power users, choose at least 2 GB of system memory and the 100 GB hard drive. The modular bay design allows you to choose among the available Fujitsu optical drives or a second bay battery. For the highly mobile business professional who needs long battery life, select the high-capacity main battery plus a second bay battery for up to 9.5 hours⁶ of computing time.

Connectivity

With both modem and Gigabit Ethernet built in, you can connect to your office network or the internet—at home or in the office. For wireless connectivity, the Wi-Fi® certified, WPA2, Cisco CCX compliant, Intel PRO/Wireless 3945ABG Network Connection (Tri-mode 802.11a/b/g) delivers seamless connectivity with up to 54 Mbps (max.) transfer rate when connecting to a compatible access point. If you use a Bluetooth-enabled cellular phone or PDA, your LifeBook C1410 notebook can be equipped with integrated Bluetooth (version 2.0) wireless technology for data synchronization.

Stable and Reliable

Fujitsu takes pride in its world-class design, rigorous testing, and manufacturing capabilities. Fujitsu provides extremely high quality mobile computers with one of the lowest failure rates in the industry.

OVERVIEW

- Brilliant 15.4" Crystal View widescreen for vivid images and sharp text
- Superb performance, seamless connectivity and extended battery life with the latest Intel® Centrino® Duo Mobile Technology
- Affordable, powerful notebook provides great value for businesses
- Versatile modular bay allows you to customize convenient configurations according to your business needs
- Cutting-edge security featuring embedded TPM 1.2, two-level BIOS and HDD passwords, and LoJack/Computrace-ready BIOS-enabled theft recovery system⁵
- Spill-resistant keyboard
- Secure Digital media slot
- Port replicator and other key components are shared with the LifeBook E series and LifeBook S7000 series
- Gets over 9.5 hours of battery life for all day computing⁶

1) Preinstalled with a free 90-day trial version of Symantec's Norton Internet Security 2006. The 90-day trial version is activated upon user's acceptance of software license agreement. After 90 days, the user must purchase a subscription from Symantec to download latest virus definitions.

2) Accessible capacity may be less due to formatting, applications, and backup utilities.

3) The internal modems on all Fujitsu notebooks from Fujitsu Computer Systems Corporation are only qualified for use with telephone systems in selected countries, including the United States and Canada. For a list of certified countries, please check <http://www.computers.us.fujitsu.com/modems>.

4) Actual speeds over U.S. telephone lines vary, and are less than 56 Kbps due to the current FCC regulations and line conditions.

5) Requires Computrace or LoJack for Laptops service.

6) Battery life estimates reflect the results of BAPCo MobileMark2002 Productivity Workloads performed upon systems with battery life setting enabled. Actual battery life will vary based on screen brightness, applications used, features selected, power management settings, battery conditioning, and other customer preferences. DVD/CD-RW, DVD Writer, LAN, wireless LAN or hard drive usage may also have a significant impact on battery life.

7) Service and warranty turnaround time may vary by country and product. International warranty valid only for products purchased in North, Central, and South America.

*Not all Windows® Vista™ features are available for use on all Windows Vista Capable PCs. All Windows Vista Capable PCs will run the core experiences of Windows Vista, such as innovations in organizing and finding information, security, and reliability. Some features available in premium editions of Windows Vista—like the new Windows® Aero™ user interface—require advanced or additional hardware. Check www.windowsvista.com/getready for details.
